DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Wednesday, 06 November 2024 at 11:17 Local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Air pollution levels are expected to Low across the UK on Wednesday. Light winds across England and Wales today means pollution from Bonfire night will clear slowly throughout the day.

Tomorrow: Air pollution levels are expected to remain Low across the UK on Thursday, although isolated pockets of Moderate are possible near urban areas.

Outlook: Air pollution levels are expected to remain mostly Low across the UK during the period. However, with high pressure dominating the weather, pockets of Moderate are possible.
